Jingili Triple Series points will be calculated by adding the highest attained points from each round, based on the overall finishing place (rank) within each round.

The maximum number of rounds where points can be used for the series calculation equals the number of rounds used for qualification. For clarity, the maximum number of rounds for the Jingili Triple Series is two (2).

Points are awarded and calculated by category:

- For example, if a rider enters 11 Boys in one event and 12 Boys in the next, both results will earn points in different categories. Points earned in different categories will not be added together for placing.

5.4 Riding Up

Riders are permitted to ride up per the [AusCycling Technical Regulations](#) 2.01:

- 2.01.01 - Except at National Championships, National Series and State/Territory Championships, competitors may only enter up (ride up) two (2) categories above their racing age or ride the opposite gender category equal to or above (but not below) their own racing age. This includes age-on-day and year of birth racing.
- 2.01.02 - A competitor in all categories other than participation categories (Novice, Sprockets and Mini Wheelers) may enter up two (2) categories above their racing age up to the pinnacle category.

Pinnacle category is the category with a maximum age of 24, categories above the age of 24 shall be combined with the next younger category. Riders aged above 24 may enter down (ride down) to the pinnacle category. E.g 50+ rider can enter 16-24.

Participation categories are permitted to ride up within their category only. (e.g. Sprockets must stay in Sprockets).

5.5 Merged Categories

In the scenario where categories have been merged at an event (for whatever reason), points will be awarded to the rider according to their entered category. For example, if a rider is merged into a category and is placed third in that category but is the first finisher in their entered age category, they will receive first-place points.

5.6 Tie Break

When competitors share the same number of Series Total points, ties will be broken using the following method:

1. The competitor with the highest number of points earned in a single event that counts towards their series total is awarded the better rank.
2. If the scores are still tied, the next highest points for each rider are compared, and so on, until all events that contribute to their series total are exhausted.
3. If still tied, the riders will receive the same series placing.
